

REVISED

STATEMENT OF PURPOSE

RS27409 / S1275

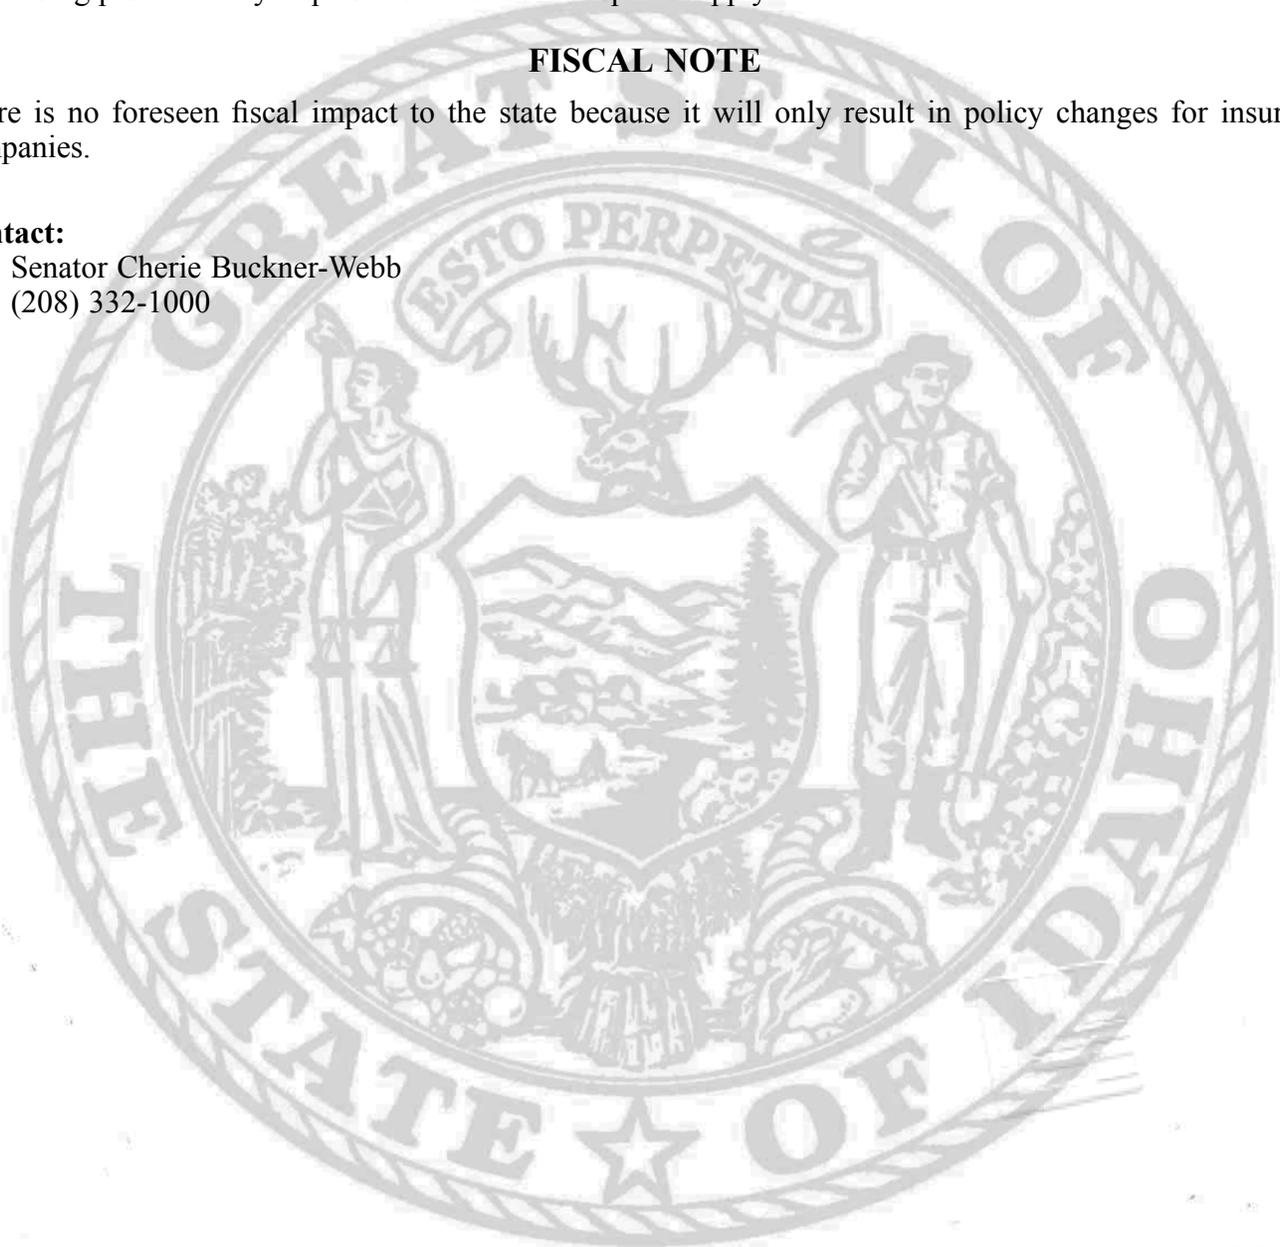

This legislation will require health benefit plans to provide reimbursement for a 6-month supply of contraceptives. Currently, many insurance plans reimburse for only a one-to-three month supply of contraception. This legislation will require any health benefit plan issued or renewed on or after January 1, ~~2020~~2021, that covers contraceptives approved by the federal Food and Drug Administration to provide reimbursement for a 6-month refill of contraception obtained at one time by the enrollee. The enrollee or the prescribing provider may request a smaller contraceptive supply.

FISCAL NOTE

There is no foreseen fiscal impact to the state because it will only result in policy changes for insurance companies.
